We had the possibility to do this mobility during the summer because we had no students involved in the project, but we had the difficulty to do the meeting in the Greek school because of the holidays(closed schools) and closed hotels(covid reason) as well.

We decided to do the meeting in the region of Mani (Peloponese) where there is an historical interest connected to the Greek revolution in order to promote the 200 years of celebration to our European partners. The three project meetings took place into the hotel's conference room .

In the morning we welcome our partners ,we picked up them from Athens ,we stopped for a visit to the ancient city of Sparti and we mooved to Monemvasia ,where we had our welcome dinner.
